

HEALTH SAFETY AND ENVIRONMENT POLICY

SCOPE

Marr Contracting is committed to ensuring the health, safety and wellbeing of all persons we interact with, and minimising the environmental impact of our work, through the continual improvement of our Health Safety Environment (HSE) performance. As part of our HSE policy we aim to prevent any incident, injury or ill health as a consequence of our work.

MARR CONTRACTING IS COMMITTED TO:

- Conducting our business in a manner that prevents injuries and ill-health to people as a result of what we do.
- Identify hazards, manage and control risk, to continually improve our HSE management and performance and comply with legislative and other requirements, as well as our customers' HSE requirements.
- Always plan to execute our operations with consideration for our workers, our customers, our stakeholders and the wider public.
- Protect the environment from any pollution as a result of what we do.

THE HSE POLICY REQUIREMENTS ARE TO:

- Provide and maintain a safe and healthy workplace.
- Prevent injuries and ill-health to workers and protect the environment from pollution as a result of our operations.
- Comply, where reasonably practicable, with legal and other requirements in the jurisdictions in which the Business operates
- Regularly measure, monitor and communicate HSE performance against defined objectives and targets.
- Define and communicate responsibility for HSE activities and ensure all levels of the Business are held accountable.
- Consult on all issues that may affect a workers' health and safety
- Ensure that our workers and other necessary stakeholders are provided with the necessary information, instruction, training and supervision to enable them to work without causing or sustaining harm.
- Identify all hazards in the workplace and, where possible, pro-actively eliminate, or otherwise minimise, any potential source of harm to people and the environment.
- Provide and maintain safe and efficient work methods for HSE critical activities.
- Acknowledge and respond promptly to HSE concerns raised by our workers, customers and all other stakeholders.
- Establish and maintain effective HSE management controls.
- Continuously improve HSE performance.
